DINIJA SEFEROVIĆ

PROFILE

My name is Dinija Seferović.
I graduated from Faculty of Electrical Engineering, University of Sarajevo, field of Computer Science and Information Technology. I find myself a very motivated, ambitious and creative person, a lifelong learner. My specialities include quickly learning new skills and programming languages, problem solving, optimization and design principles. I am enthusiastically grabbing onto any programming languages, frameworks or principles I can integrate into the colorful and fun coding web in my head. Full-stack development calls to all my passions; it incorporates both creativity and problem solving, which is what I aspire to do in the upcoming years.

EDUCATION

Faculty of Electrical Engineering, University of Sarajevo, Field of Computer Science and Information Technology

Graduated in 2022
Gained great theoretical knowledge and successfully completed several individual and group projects in different programming languages during the studies. The projects can be found on my GitHub profile and my portfolio.

WORK EXPERIENCE

Atlantbh Full-stack development Internship

Completed in 2022
Successfully completed a three-month internship using Spring Boot and ReactJS technologies to create a web application.
This experience helped me learn and develop new technical and professional skills as well as strengthen my existing abilities.

Graphic design freelance

2019 – 2021
Freelance and work with clients from different parts of the world on smaller graphic design projects.
This experience primarily helped me to improve my professional communication skills and communication in English, responsibility for the on-time delivery of the desired end-product and the concepts and rules of graphic design.

SKILLS

Great knowledge of programming languages and frameworks:
- C, C++, C#
- JavaScript, NodeJS, ReactJS
- Java, Spring Boot
- ASP.Net Core
- HTML+CSS

Excellent knowledge of English and German languages
